Welcome Section

Congratulations!

You have made an excellent choice with the purchase of this quality MAXTEK® product.

By doing so you now have the assurance and peace of mind which comes from purchasing a product that has been manufactured to the highest standards of performance and saftey, supported by the high quality standards of Quesh.

We want you to be completly satisfied with your purchase so this MAXTEK® product is backed by a comprehensive manufacturer's 3 year warranty and outstanding after sales service through our dedicated helpline.

We hope you enjoy using this product for many years to come.

If you require technical support or in the unlikely event that your purchase is faulty, please telephone our helpline for immediate assistance. Faulty product claims made within the 3 year warranty period will be repaired or replaced free of charge provided that you have a satisfactory proof of purchase (keep you receipt safe). This does not affect your statutory rights. However be aware that the warranty will become null and void if the product is found to have been deliberately damaged, misused and/or disassembled.

## General information & Safety Instructions

The remote control can be powered by 1 x 'CR2025' battery.

Do not dispose of batteries in your household waste.

Please contact your local authority for details on safe disposal.
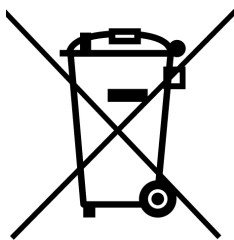

- Never throw batteries into a fire or expose to excessive heat source(s).
- If batteries are swallowed, please seek immediate medical attention.
- Always ensure correct +/- battery polarity when installing batteries.
- Do not recharge non-rechargeable batteries.
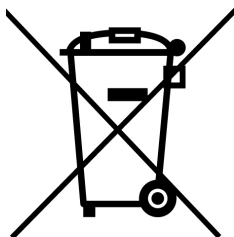

Electrical and electronic equipment (WEEE) contains materials, parts and substances, which can be dangerous to the environment and harmful to human health if the waste of electrical and electronic equipment (WEEE) is not disposed fo correctly.

Equipment, which is marked with the WEEE logo (as shown on the left), should not be thrown away with your household waste. Contact your Local Authority Waste Disposal Department, as they will be able to provide details of the recycling options available in your area.

Getting Started

Basic DVD Operation
- Before first time use, open the disc cover and carefully remove and discard the white cardboard dust cover from inside the deck marked "Warning: Please take out this card before playing".
- Remove all transparent protection from the DVD player.
- Connect the mains power adaptor to the mains outlet and the DC in socket.
- Turn the power switch on the right-hand side panel to 'on' .
- Insert a DVD and press the play button.

Connecting to a TV
You can connect the DVD player to a TV so that your movies, pictures and music can be played on your larger screen.
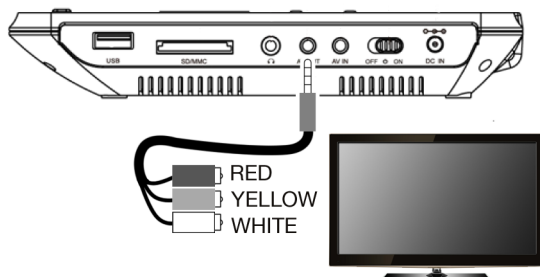

- Insert the 3.5mm Jack end of the 3.5mm to RCA cable into the AV out port on the DVD player.
- Connect the three RCA plugs to the corresponding coloured ports on your TV, normally located on the back.
- Choose the correct AV channel on your TV to view the content of the DVD player.

Please note: If your TV does not have a 'RCA in' port, you may need a RCA to SCART adaptor to use this function, if a SCART port is available.

Charging the DVD player

Connect either adaptor to charge the unit via the 'DC IN' port.
This will take approximately 6 hour to fully charge. A red LED will indicate that it is charging or in need or charging if it's not connected to an adaptor. The LED will change to blue when fully charge.

The battery will last up to 3 hours of use.

Using the USB, SD/MMC slot

Memory Cards
• Connect the SD/MMC card into the named port on the side.
• Press and hold the 'DVD/USB/CARD' button to enter the DVD/USB/CARD mode.
• Use the up/down arrow keys to highlight 'Card Mode' and press the 'Enter' button to select it.
• Press the 'Play' button to play selected media from the memory card.

USB Memory Stick
• Connect the USB memory stick into the named port on the side.
• Press and hold the 'DVD/USB/CARD' button to enter the DVD/USB/CARD mode.
• Use the up/down arrow keys to select 'USB Mode' and press 'Enter'.
• Press the 'Play' button to play selected media from the USB memory stick.

Please note:
Make sure the memory card or USB stick storage is no bigger then 8Gb and that it is in FAT32 format. You can do this through a computer/laptop and that video file formats are in DVD, AVI, MPEG4 or DIVX.

MAXTEK

Using as a screen for a device

Connecting a Device
You can connect the output of a device that uses RCA out to this DVD player and show the image or video feed.
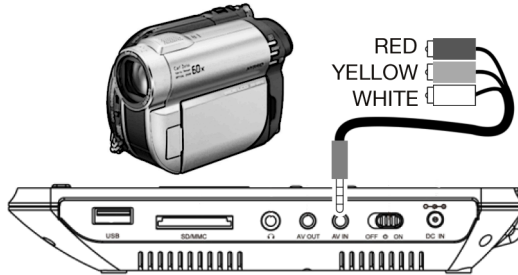

- Insert the 3.5mm Jack end of the 3.5mm to RCA cable into the 'AV in' port on the DVD player.
- Connect the three RCA plugs to the corresponding coloured 'RCA out' ports on your chosen device.
- Press 'mode' on the DVD player and switch it to 'AV in'. This will now show the connected live feed on the DVD player.
